

body and the tape, keeping the tape parallel to the floor.

Keep one finger between the tape and your body. Imagine that the tape measure is the trousers you will be wearing and take the size that you desire.

11. Hips size :
Stand with your heels together, and measure around the fullest part of your hips, keeping the tape parallel to the floor.

12. Jacket Length :
Measure from the highest part of your shoulder (A) (next to the shirt collar) to the desired measure (B)– normally you should measure to the tip of your thumb (B).

Important : The measuring tape must pass through the center chest.

13 Crotch length :
Hold the tape at the center back of your waist (A). Run the tape between your legs, pulling comfortably at the crotch, and up to your natural waist in front (B). Both (A) and (B) at the same level where you would wear your pants. If you have any doubts compare this measure with pants that fit you well.

14.Thigh size :
Measure around the widest part of your thigh. Let loose so that you can put a finger between your body and the tape.

15.Knee :
Measure around your knee. Remember that it is an optional measurement.

16. Pant's length :
Measure from the waist (where you would wear your pants) (A) to the desired length (B), normally you should measure to the beginning of the heel (B).

17. Skirt length :
Measure from the waist (where you would wear your skirt) (A) to the desired length for the skirt(B).

18. Trousers Bottom-Width :
Measure around the width of your trousers bottom. measure the circumference over your trousers.
